All participants must register with USAV in order to tryout for any club. This registration must be done in advance. Please go to www.badgervolleyball.org to register and pay a USAV membership fee on line. This new process will ensure your ability to have everything properly registered and will save a lot of time after tryouts. It is extremely important that you do this before you tryout this October/November. For questions about the webpoint system, call the region office 262-349-9785.
